### **Wordpress Developer At JK Media Islamabad**

Work as a frontend wordpress developer. Created and managed a library of reusable Elementor templates, reducing project setup time by 50% for new client sites, while ensuring consistent branding and user interface across all platforms. Specialized in developing and enhancing eCommerce websites.

### **Microsoft Azure Ai Fundamental Certificate**

Achieved Microsoft Azure Ai Fundamental Certificate. In this certificate i have learnt foundational knowledge of artificial intelligence (AI) and machine learning (ML) concepts and their implementation on Microsoft Azure. These are following key concepts that this certificate covers:

- Microsoft Azure AI Fundamentals, Computer Vision Microsoft Azure AI
  - Fundamentals, Natural Language Processing Microsoft Azure AI Fundamentals,
  - Document Intelligence and Knowledge Mining Microsoft Azure AI Fundamentals,
  - Generative AI
- 

## EDUCATION

### **Arid University Rawalpindi**

Bachelor of Science in Computer Science (BS CS)

## PROJECTS

### MERN Stack Ecommerce Application

Link:

<https://github.com/Shoaib-Chouhdry/MERN-ecommerce-app.git>

Developed a full-stack e-commerce platform using MongoDB, Express.js, React, and Node.js. Implemented Stripe for secure payment processing and integrated Cloudinary for efficient image uploads. Utilized Redux Toolkit for state management and built a role-based authentication system with protected routes for both users and admins. Designed and developed separate dashboards for users and administrators to manage orders, products, and user roles effectively.

### React Landing Page

Link:

<https://mern-ecom-frontend-five.vercel.app/>

Developed a fully responsive and visually appealing landing page using React.js and Tailwind CSS, implementing reusable UI components, smooth navigation, and a modern layout optimized for both desktop and mobile devices.

### Next js Portfolio

Link:

<https://nextjs-portfolio-ashy-theta.vercel.app/>

Developed a modern portfolio application using Next.js, Tailwind CSS, ShadCN UI, and Framer Motion, featuring responsive design, interactive animations, and reusable components for a polished user experience.

### Information Security Management System

Github Link:

<https://github.com/Shoaib-Chouhdry/ISMS.git>

Provide the facility to secure the data of faculty and all data of organization. It improves data confidentiality, availability and integrity. It lessens the severity of risk and control highly sensitive data. It manages Threats , Vulnerabilities and risk of data and assign policies according to ISO standard 27001.

purpose:

Can suggest a solution for solving a problem in better way.

Ensures information is available on time. Prevent loss , abuse and unauthorized modification of information C# and MY SQL is used in this project.
